PREFACE.

In the dispersal of the extensive collection of Mr. Louis A. Risse, Chief Civil Engineer of the City of New York, collectors are afforded an opportunity to purchase coins and medals from a cabinet the forming of which has been the work of a lifetime, for Mr. Risse has been an ardent collector for many years. Being favorably known as a gentleman of means and refinement and a ready purchaser, he was constantly in receipt of parcels of coins, medals and decorations to select from, and how well he profited is readily seen by a careful perusal of the ensuing pages. Every coin or medal is guaranteed genuine, and this guarantee holds good indefinitely.

No lot is separated—all described under each lot number are sold under that number, and at so much each piece, no matter how many there may be in it. All bids are so much each piece.

Collectors who send bids and have not established a credit with us will be required to send reference or to pay in advance of shipment of the goods purchased. We have found our practice of examining each bid letter on receipt and instructing the bidder where he appears uninformed as to values to give much satisfaction to our numerous clients, and letters sent in up to four days prior to sale receive this examination. Many errors are thus corrected—more than some would suppose likely—and also collectors who make bids far below market value when so informed concentrate the sum they desire to expend on the lots within their means, and are therefore more likely to be successful.

Priced catalogues will be supplied after sale on receipt of \$1 (stamps taken, any value). Payment required with order.

Very respectfully,

S. H. & H. CHAPMAN.

Numismatists, 1348 Pine Street, Philadelphia.
